

Upmatic® 4210

Upmatic 4210 = fully-automatic filling and closing machine for bags with or without handle (from 1 - 10 Kg).

Suitable for all bulk and granular
Food processing and industrial products.

The Upmatic 4210 is extremely reliable and easy to use. The paper bags are taken from a magazine and conveyed under the filling hopper.

They are pneumatically opened and filled. After the filling, the bag is closed, sewn up and conveyed.

All adjustments can easily be carried out without tools.

An industrial sewing machine, a collecting belt and a vacuum pump are supplied as standard equipment.

Combination with all common weighing and dosing equipment is possible.

In our customers' interest, we reserve the right to introduce technical changes.

UPMATIC® 4210

Type of machines:

Upmatic 4210: standard model, hammer dimble enamel blue/silver finish
See illustration and explanatory text

Upmatic 4210E: machine in stainless steel

Accessories:

- Packing transport belts in individual sizes
- Marking equipment : - ink printer, thermo printer with adhesive labels
- Rotary tables

Technical Data :

- Capacity: Approx. 1 kg. 30 cycle./min
Approx. 1,5 kg. 30 cycle/min
Approx 2,5 kg, 30 cycle/min
Approx 5kg. 30 cycle/min
Approx 10 kg. 30 cycles/min
- Bag sizes :
Up to 10 kg: min. 160x80x300mm
Up to 15 kg: max. 400x180x700mm
- Capacity of magazine : approx. 300 bags
- Supply voltage : 220/380 V, 50 Hz
- Power consumption : 3,0 KW
- Air pressure: 6 bar
- Air consumption : 13,8 l/cycle
- Weight : 700 kg
